2. Supplier Banking Details Failed

Questions (What can I do)	Answers
Banking Details Failed i. Incorrect Company Name/Surname	<p>When you get this error message, it means what you have Captured on CSD under Bank/Account Holder Name is not the same as what the Bank has, For Example my company is CSD TRADING (PTY) LTD and the bank has written it as such on their System but when you put it on CSD under account holder name and you just type CSD TRADING it will return the "Bank Verification Failed error message and the reason will be incorrect company name or surname.</p> <p>If the name of the company is, too long (e.g. MASIBAMBISANENI BAFAZI TRADING AND PROJECT PRIMARY COOPERATIVE LIMITED). There are high chances that this name will fail even if you included exactly as it is in the bank letter, so we advise Supplier to visit bank and request a screenshot of banking system to verify if how is it written in the banking system. The following are the systems used by various banks.</p> <ul style="list-style-type: none"> i. FNB – HOGAN ii. NEDBANK – BANKING PLATFORM iii. ABSA – CIF SCREEN iv. STANDARD BANK – BANKING LOOKUP SCREEN

ii. Incorrect ID or company registration number	Supplier should ensure that their bank account is Active meaning it is not a reserved account because CSD does not verify Reserved Accounts . Supplier should ensure that the ID and the Company Registration Number is linked to the Account Number .
